

Residential ENERGY EFFICIENCY Rebate Program & Heat Pump Financing Program

Southwest Tennessee Electric EMC and TVA have partnered to offer you an opportunity you will not want to pass up. eScore is a residential energy efficiency program that provides you, our members, with a clean path to make your home as energy efficient as possible. The program allows you to make qualified energy improvements at a pace you can afford. eScore provides a home energy scorecard that gives you a simple path for a single family homeowner to score a perfect 10 by completing a list of energy efficient improvements.

Participate in eScore and save future energy dollars,
improve the value of your home and receive cash incentives!

If you are a Southwest Tennessee EMC member, own a single-family residence, and wish to participate in the eScore program, you have two options in which you can participate:

- 1** You can register for eScore at www.2escore.com and call your local Southwest Tennessee EMC member service center. You may choose to have an evaluation performed on your home for a \$175 **non-refundable fee which is charged to your electric bill.**
- 2** To save the \$175 fee, you can register for eScore online at www.2eScore.com, then access the portal to find a contractor through the Quality Contractor Network (QCN). You contact the QCN to schedule work performed. There will not be a charge by Southwest Tennessee EMC for this service.

The work must be performed by one of our certified Quality Contactors. You will receive cash incentives after one of our qualified inspectors performs a site visit. This site visit will take approximately one hour at your home.

Once the site visit has been performed, you will receive:

- Your rebate based on attached rebate schedule (see back)
- The eScore of your home from 1-10 (10 being the most efficient)
- Energy saving items such as: LEDs and low flow showerheads as available.

For more information, please call your Southwest TN EMC service center.

Membership Corporation

A Touchstone Energy® Cooperative 

eScore Home Efficiency Program

Upgrade Rebate Schedule

Southwest Tennessee Electric Membership Corporation

For a member to qualify for rebates, each measure must be installed by an eScore QCN contractor.

Financing is available for electric heat pumps with no money down and low interest rate. Members pay monthly on their electric bill.

Homes with unvented gas heaters as primary source of heat are NOT eligible for rebates.

Southwest TN EMC will reimburse members up to 50% for the cost of upgrades limited as per the table below:

Upgrade	Maximum Rebates	Limits
Attic Insulation	\$250 per home	One time only
Air Sealing	\$200 per home	One time only
Duct System (Existing HVAC only)	\$200 per system	One time per system
Heat Pump Water Heater	\$200 per system	No limit
Heat Pump Replacement (must be Energy Star) Ducted system or non-ducted	 \$250 per unit	No limit
Tune-up for existing Heat Pump or Central Air Conditioning system	\$15 per unit	One rebate per unit per year
Central Air Conditioning replacement (must be Energy Star)	 \$150 per unit	No limit
Geothermal Heat Pump (must be Energy Star)	 \$500 per unit	No limit
Dual Fuel Heat Pump (must be Energy Star)	 \$250 per unit	No limit
Ductless Mini-Split (primary heat source from non electric to electric)	\$250 per system	No limit
Dual Fuel Heat Pump (primary heat source from non-electric to electric)	\$500 per system	No limit
Air Source Heat Pump *Effective 12/1/17 (primary heat source from non-electric to electric)	\$1,000 per system	No limit
Conventional Electric Water Heater *Effective 12/1/17 (primary fuel source from non-electric to electric)	\$500 per unit	No limit

The following items are not eligible for cash incentives through this program:

Refrigerators
Clothes washers and dryers
Radiant Barriers

Programmable thermostats
Storm doors
Window film/solar screens

Insulated garage doors
Dishwashers
